### What is this product?

#### TYPE OF PRODUCT:

The product is a Sub-Fund of DNCA Invest (the "Fund"), an Undertaking for collective investment in transferable securities (UCITS) under the laws of the Grand-Duchy of Luxembourg.

#### TERM

The Sub-Fund is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

#### OBJECTIVES

The Sub-Fund's objective is to outperform Pan-European equity markets over the recommended investment period. The STOXX EUROPE 600 Net Return EUR reference indicator, calculated with dividends reinvested, is provided for a posteriori comparison purposes. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

To achieve its investment objective, the Sub-Fund's investment strategy relies on active discretionary management aimed at investing in high-quality Pan-European "growth" stocks. The selection process is based on picking stocks according to their intrinsic worth (an in-depth analysis of fundamentals is conducted in-house), not on the composition of the benchmark index. Investments may therefore be concentrated on a limited number of stocks; there must nevertheless be at least 20 stocks in the portfolio. The Sub-Fund is also managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. Additional information on SRI strategy may be obtained in the prospectus of the Sub-Fund.

The Sub-Fund may at any time invest in:

- Equities of issuers having their registered office in the EU or related financial derivative instruments (such as CFD or DPS): from 60% to 100% of its net assets.
- Equities outside the EU: from 0% to 40% of its net assets
- Corporate or government fixed income securities denominated in Euro: from 0% to 25% of its net assets.

At least 50% of the Sub-Fund's assets shall be invested in stocks of issuers belonging to the STOXX EUROPE 600 Net Return Index. Investment in small and mid-cap stocks (less than EUR 3 billion) may not exceed 50% of the Sub-Fund's net assets. The Sub-Fund may be exposed to emerging markets for 5% of its net assets.

Exposure to exchange risk may reach 100% of the Sub-Fund's net assets.

Corporate or government fixed income securities shall mainly be selected from the "Investment grade" category. The proportion of speculative issues may not represent more than 10% of the Sub-Fund's net assets.

Investment in units and or shares of UCITS and/or other UCIs is limited to 10% of the Sub-Fund's net assets.

The Sub-Fund may use exchange traded or OTC derivatives (other than CFD and DPS) up to 40% of the Sub-Fund's net assets, including but not limited to, futures contracts and non complex options negotiated on regulated markets for the purpose of hedging or increasing equity risk without seeking overexposure.

The Sub-Fund may also operate on the foreign exchange markets to cover investments realised outside the euro area.

The Sub-Fund is eligible to the PEA (French equity savings plan).

The Sub-Fund uses the benchmark for the calculation of the performance fee and performance comparison purposes. The benchmark is also used as a reference point for portfolio construction as at least 50% of the Sub-Funds' assets shall be invested in stocks of issuers belonging to the benchmark. The Sub-Fund is actively managed. This means the Management Company is taking investment decisions with the intention of achieving the Sub-Fund's investment objective. The Sub-Fund may take positions whose weightings diverge from the benchmark and will invest less than 50% of its assets in securities which are not included in the benchmark. The investment strategy will restrict the extent to which the portfolio holdings may deviate from the benchmark. This deviation may be limited.

#### INTENDED RETAIL INVESTORS:

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital, for receiving regular income and who wish to hold their investment over 5 years.

## OTHER INFORMATION:

The Depositary is BNP Paribas, Luxembourg Branch.

The redemption of shares may be requested each day.

Income is distributed.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Sub-Fund lie in the possibility of depreciation of the securities in which the Sub-Fund is invested.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

### PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment	5 years EUR 10 000		
	If you exit after 1 year	If you exit after 5 years

## What happens if the Fund is unable to pay out?

There is no guarantee in place against the default of the Sub-Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The Sub-Fund would not be liable in the event of failure or default of the Fund.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	EUR 645	EUR 3 547
<b>Annual cost impact (*)</b>	6.5%	4.7%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.2% before costs and 8.5% after costs.

## COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
