This Product is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. Further information is available on the Management Company's website: www.dnca-investments.com. Key Information Document production date: 05/08/2024.

What is this product?

TYPE

This Product is a sub-fund of DNCA Invest SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The Product is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Product seeks to outperform the 20% Eurostoxx 50 + 80% FTSE MTS Global composite index calculated with dividends reinvested, over the recommended investment period. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social/ societal and governance (ESG) criteria.

The overall investment strategy of the Product is to seek to enhance the return on a wealth investment through active management of the portfolio of Euro denominated equities and fixed income products. It aims to provide an alternative to investments in bonds and convertibles bonds (directly or through mutual funds) as well as an alternative to Euro denominated funds benefitting from a capital guarantee. The Product however does not benefit from a guarantee on capital invested. The Product is also managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The investment process takes into account internal scoring based on an extra-financial analysis through a proprietary rating model (ABA, Above & Beyond Analysis) developed internally by DNCA. The risk exists that the models used to make these investment decisions do not perform the tasks they were designed to. The use of the proprietary tool relies on the experience, relationships and expertise of DNCA with the "best in universe" method. There may be a sector bias. The Product will proceed to the extra-financial analysis on at least 90% of its securities, while excluding 20% of the worst issuers from its investment universe. Additional information on SRI strategy may be obtained in the prospectus of the Product.

The following limits apply:

- For up to 100% of its net assets, the Sub-Fund may be exposed to fixed income securities. Within the limit the fixed income securities may mostly be denominated in Euro, composed of securities issued by public or private sector-issuers, and be incorporated in a country which is an OECD member state, without any rating constraint including non-rated issues.
- For up to 50% of its net assets the Sub-Fund may be exposed to securities belonging to the "speculative grade" category (i.e. which have a rating below a Standard & Poor's minimum A-3 short term or BBB- long term rating or equivalent) or non-rated. The Management Company shall not solely base its investment decisions on ratings assigned by independent rating agencies and can proceed to its own credit risk assessment.
- For up to 35% of its net assets, the Sub-Fund may be exposed to equities. Within this limit, the equities may mostly be issued by issuers incorporated in OECD member states, belonging to all market capitalisations categories, and denominated in Euro. Investment in equities issued by issuers which capitalisation is under 1 billion Euros may not exceed 5% of the net assets of the Sub-Fund.
- Up to 5% of its net assets, the Sub-Fund may be exposed to securities which may qualify as distressed securities (i.e. which have a Standard & Poor's rating below CCC long-term rating or equivalent).
- The Sub-Fund may invest up to 15% of its net assets in Asset backed securities (ABS) inter alia mortgage backed securities (MBS) invested into shall consist of securities that are rated at least B- by Standard & Poor's for example or that are considered of a comparable credit quality by the Management Company.

The aggregate exposure to equities incorporated in non-OECD member states and/or (ii) fixed income securities issued by issuers incorporated in a non-OECD member state and/or guaranteed by a non-OECD member state, may not exceed 10% of the net asset of the Product.

- Up to 10% of its net assets in contingent convertibles bonds. The duration of the Sub-Fund's portfolio will be limited to 7 years. The Sub-Fund may invest up to 10% of its net assets in units and/or shares of UCITS and/or other UCIs including ETFs.

In order to achieve the investment objective, the Product may invest in equities or related financial derivative instruments for the purpose of hedging or increasing equity or interest rate risk without seeking overexposure. The Product may also be exposed up to 100% of its net assets to financial derivative instruments or OTC derivatives such as, but not limited to, futures, options, CDS, CDS on indices, negotiated on regulated or OTC markets, for hedging or investment purposes (e.g. increasing equity exposure, interest rate risk, credit risk, without seeking overexposure).

The Product is actively managed and uses the benchmark for performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

This is an accumulation share.

INTENDED RETAIL INVESTORS

The Product is intended for retail investors who have no financial knowledge or experience of the financial sector. The Product is intended for investors who can withstand capital losses and who do not require a capital guarantee.

OTHER INFORMATION

The Depository is BNP Paribas, Luxembourg Branch.

The NAV is available on the website: www.dnca-investments.com.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

The risk indicator assumes you keep the product for 3 years.

Higher risk

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Product lie in the possibility of depreciation of the securities in which the Product is invested.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. What you get will depend on market trends and how long you keep the Product.

Recommended holding period:
Example investment

3 years
EUR 10 000

**If you exit after
1 year**

**If you exit after
3 years**

SCENARIOS

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	EUR 9 060 -9.4%	EUR 8 130 -6.7%
Unfavourable	What you might get back after costs Average return each year	EUR 9 060 -9.4%	EUR 9 090 -3.1%
Moderate	What you might get back after costs Average return each year	EUR 10 250 2.5%	EUR 10 710 2.3%
Favourable	What you might get back after costs Average return each year	EUR 11 530 15.3%	EUR 11 960 6.2%

- The unfavourable scenario occurred for an investment in the Product between October 2017 and October 2020.
- The moderate scenario occurred for an investment in the Product between March 2019 and March 2022.
- The favourable scenario occurred for an investment in the Product between March 2020 and March 2023.

What happens if DNCA Finance is unable to pay out?

The Product is a co-ownership of financial instruments and deposits separate from DNCA Finance. In the event of the default of DNCA Finance, the assets of the Product held by the depository will not be affected. In the event of default by the depository, the risk of financial loss of the Product is mitigated due to the legal segregation of the depository's assets from those of the Product.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 213	EUR 470
Annual cost impact (*)	2.1%	1.5% each year

* The annual cost impact illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3.8% before costs and 2.3% after costs.

We may share part of costs with the person selling you the Product to cover the services they provide to you. These figures include the maximum distribution fee and which amount of 100% of costs. This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 1.00% of the amount you pay in when entering this Investment. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this Product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.10% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 110
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 3
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	None

How long should I hold it and can I take my money out early?

Recommended holding period: 3 years.

Shareholders may redeem shares on demand and executed on each NAV calculation and publication day before 12.00 noon (Luxembourg time).

The recommended holding period was chosen depending on the asset class, investment strategy and risk profile of the Product, to enable it to achieve its investment objective while minimizing the risk of loss.

You can redeem all or part of your investment at any time before the end of the recommended holding period, or hold it longer. There are no penalties for early divestment. However, if you request redemption before the end of the recommended holding period, you may receive less than expected.

The Product has a redemption capping system known as « Gates » described in the prospectus.

How can I complain?

If you have any complaints about the Product, you can send a written request with a description of the problem either by e-mail dnca@dnca-investments.com or to the following address: DNCA Finance, 19 Place Vendôme, 75001 Paris.

Other relevant information

The Product promotes environmental or social and governance (ESG) criteria within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability reporting in the financial services sector ("SFDR Regulation").

The Product's prospectus and the latest key information document, as well as the latest annual report and information on past performance, can be obtained free of charge from the website of the manufacturer: www.dnca-investments.com.

When this Product is used as a unit-linked carrier in a life insurance or capitalization contract, additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in this document, the contract in the event of a claim and what happens in the event of default by the insurance company, are presented in the key information document for this contract, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligation.
