DNCA Invest - Sérénité Plus - Class ID - EUR

A sub-fund of the SICAV DNCA INVEST - ISIN: LU1490785687

This fund is managed by DNCA FINANCE

Objectives and Investment Policy

Essential management characteristics:

European Bond Fund

The Sub-Fund seeks to outperform the Bloomberg Euro-Aggregate 1-3 year Index calculated with coupons reinvested on the recommended investment period. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

The Sub-Fund is managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. In this way, the investment process and resulting bond and stock picking take into account internal scoring with respect to both corporate responsibility broken down in four aspects: (i) shareholders responsibility, (ii) environmental responsibility, (iii) responsibility towards workers (iv) and society responsibility. The Management Company uses a proprietary ESG analysis approach with the "best in universe" method. There is a risk that this data is incorrect, insufficient or missing. There may be a sector bias. In line with socially responsible investing ("SRI") management, issuers are also selected according to ESG criteria which involves to exclude at least 20% of the worst issuers of shares from its investment universe and therefore not investing in these issuers. Additional information on SRI strategy may be obtained in the prospectus of the Sub-Fund. The Sub-Fund will select securities in the fixed income universe through macroeconomic, technical, financial and credit analyses. Balance sheet and cashflows analyses are core to the selection process. The modified duration of the Sub-Fund will stay between 0 and 4, without any restriction on the modified duration of individual securities in the Sub-Fund. The Sub-Fund will only invest in securities denominated in Euro. The investment process is based on the following three stages: (i) selection of the investment universe combining a financial and extra-financial approach, (ii) calibration of the modified duration and the overall credit risk of the Sub-Fund and the level of cash depending on the analysis of the interest rate and macro-economic environments and (iii) selection of securities based on a fundamental analysis taking into account ESG criteria and the valuation of instruments. The Sub-fund benefit from the French ISR Label.

The Sub-Fund may invest at any time within the following limits in:

- up to 100% of its total assets may be exposed to bonds and debt securities denominated in Euro (corporate bonds, Government bonds, convertible & exchangeable bonds, perpetual bonds, etc), composed of securities issued by public or private sector issuers, without any rating constraints including non-rated issues.
- up to 10% of its net assets in equities denominated in Euro, obtained from conversion of convertible bonds or by any other means.

The Sub Fund's fixed income portfolio may be composed of securities belonging to the "speculative grade" category (i.e. not belonging to the "investment grade" category or non-rated). For up to 5% of its net assets, the Sub-Fund may invest in securities which may qualify as distressed (i.e. which have a Standard & Poor's long-term rating below CCC, or equivalent). In all cases, the Sub-Fund will not invest in securities which may qualify as "in default" at the time of the investment. Fixed income securities which may be downgraded will be disposed of as soon as possible with due regards to the interest of shareholders.

The Sub-Fund may invest up to 20% of its net assets in perpetual bonds and in contingent convertible bonds.

The Sub-Fund may invest up to 10% of its net assets in units and/or shares of UCITS and/or AIFs.

The Sub-Fund may invest in exchange traded financial derivative instruments or OTC derivatives in order to achieve the purpose of limiting interest rate sensitivity or exploiting any anomaly in the interest rate structure within the limit of 100% of the Sub-Fund's net assets.

The Sub-Fund may make use of deposits by a maximum of 20% of its total assets and may use techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management.

Benchmark Information : The Sub-Fund is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Investment Manager is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this sub-fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to fixed income markets. The fund does not benefit from any capital protection or guarantee.

Material risks not taken into account in this indicator:

Credit risk: in the event that an issuer is downgraded, the value of the bonds in the portfolio may fall, thus decreasing the fund's net asset value.

Liquidity risk: on small- and medium-cap markets, the volume of stock market-listed securities is smaller, so downward market movements are greater and faster than for large-cap shares. The net asset value of the UCITS may therefore decline faster and by more.

The occurrence of one of these risks may lead to a reduction in the net asset value.

Charges

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.

One-off charges taken before or after you invest	
Entry charge	1.00%
Exit charge	0.00%

The percentage indicated is the maximum that may be taken out of your capital before it is invested. In certain cases the investor pays less.

You can obtain the actual amount of entry and exit charges from your financial advisor or the establishment with which you place your order.

Charges taken from the fund over a year
