What is this product ?

TYPE

This Product is a sub-fund of DNCA Invest SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The Product is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Sub-Fund's investment seeks to increase the value of investment (mainly through capital growth), and outperform the benchmark, over the recommended holding period which is 5 years, keeping a strong focus on the underlying ISR dynamics.

The Product is managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The investment process take into account internal scoring based on an extra-financial analysis through a proprietary rating model (ABA, Above & Beyond Analysis) developed internally by DNCA. The risk exists that the models used to make these investment decisions do not perform the tasks they were designed to. The use of the proprietary tool relies on the experience, relationships and expertise of DNCA with the "best in universe" method. There may be a sector bias. The Product will proceed to the extra-financial analysis on at least 90% of its securities, while excluding 30% of the worst issuers from its investment universe. Additional information on SRI strategy may be obtained in the prospectus of the Product. The Product benefit from the French SRI Label.

The Product may at any time be exposed to: European equities of issuers having their registered office or being incorporated in Europe : at least 70% of its net assets ; Non-European equities of issuers having their registered office or incorporated outside Europe (excluding emerging countries) : from 0% to 20% of its net assets; Equities with total market capitalisation below 1 billion euros: up to 20% of its net assets; European bonds, convertibles bonds or equivalent : from 0% to 25% of its net assets; - Speculative securities with a short-term rating of A-3 and a long-term rating of below BBB- from Standard and Poor's or equivalent : from 0% to 25%.

The Product may invest up to 10% of its net assets in units and/or shares of UCITS and/or other UCIs.

The Product may use exchange traded or OTC derivatives, including but not limited to, futures, options, forwards, swaps, credit default swaps ("CDS") on indices, CDS, contracts for difference ("CFD"), dynamic portfolio swap ("DPS") etc..The Product is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

This is a distribution share.

INTENDED RETAIL INVESTORS

The Product is intended for retail investors who have no financial knowledge or experience of the financial sector. The Product is intended for investors who can withstand capital losses and who do not require a capital guarantee.

OTHER INFORMATION

What are the risk and what could I get in return ?

Risk indicator

1	2	3	**4**	5	6	7

This risk indicator assumes you keep the Product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Product lie in the possibility of depreciation of the securities in which the Product is invested.

This product is rated 4 out of 7, representing a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks materially relevant to the Product and which could lead to a fall in the net asset value to which the indicator gives too little consideration : liquidity risk and operational risk.

As this product does not provide protection against the vagaries of the market, you could lose all or part of your investment.

PERFORMANCE SCENARIOS

This figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not takes into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances. The stress scenario shows what you might get back in extreme market circumstances. What you get will depend on market trends and how long you keep the Product.

Recommended holding period : 5 years Example Investment : 10,000 €		If you exit after 1 year	If you exit after 5 years
Scenarios	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,140 €	3,870 €
	Average return each year	-58.60 %	-17.30 %
Unfavourable	What you might get back after costs	7,880 €	9,840 €
	Average return each year	-21.20 %	-0.30 %
Moderate	What you might get back after costs	10,710 €	12,720 €
	Average return each year	7.10 %	4.90 %
Favourable	What you might get back after costs	14,250 €	19,030 €
	Average return each year	42.50 %	13.70 %

- The unfavourable scenario occured for an investment between September 2017 and September 2022.
- The moderate scenario occured for an investment between July 2016 and July 2021.
- The favourable scenario occured for an investment between October 2020 and October 2025.

What happens if DNCA Finance is unable to pay out ?

The Product is a co-ownership of financial instruments and deposits separate from DNCA Finance. In the event of the default of DNCA Finance, the assets of the Product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the Product is mitigated due to the legal segregation of the depositary's assets from those of the Product.

What are the costs ?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COST OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed :

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. ;
- EUR 10 000 is invested.

Investment : 10,000 €	If you exit after 1 year	If you exit after 5 years
Total costs	424 €	1,705 €
Annual cost impact *	4.20 %	2.70 % each year

*The annual cost impact illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 7.60 % before cost and 4.90 % after costs..

We may share part of costs with the person selling you the Product to cover the services they provide to you. These figures include the maximum distribution fee and which amount of 100% of costs. This personne will inform you of the actual distribution fee.

Performance fees	20% of the positive performance net of any fees above Stoxx Europe 600 NR index. The actual amount will vary depending on how well your investment performs. Theaggregated cost estimation above includes the average over the last 5 years.	0 €

How long should I hold it can I take my money out early ?

Recommended holding period : 5 years

Shareholders may redeem shares on demand and executed on each NAV calculation and publication day before 12.00 noon (Luxembourg time).

The recommended holding period was chosen depending on the asset class, investment strategy and risk profile of the Product, to enable it to achieve its investment objective while minimizing the risk of loss.

You can redeem all or part of your investment at any time before the end of the recommended holding period, or hold it longer. There are no penalties for early divestment. However, if you request redemption before the end of the recommended holding period, you may receive less than expected.

The Product features a redemption gating mechanism (“Gates”) and a net asset value adjustment mechanism with a trigger threshold (“Swing Pricing”), as described in the prospectus.

How can I complain ?

If you have any compliants about the Product, you can send a written request with a description of the problem either by e-mail service.conformite@dnca-investments.com or to the following address: DNCA Finance, 19 Place Vendôme, 75001 Paris.
