Objectives and Investment Policy

Essential management characteristics:
European Bond Fund
The Sub-Fund seeks to outperform the FTSE MTS Global index on the recommended investment period.

The Sub-Fund is managed taking into consideration Responsible and Sustainable principles. In this way, the investment process and resulting stock picking take into account internal scoring with respect to both corporate responsibility and sustainability of the companies. Additional information on SRI strategy may be obtained in the prospectus of the Sub-Fund. The overall investment strategy is to seek, in the medium term, a regular rate of total return consistent with a capital preservation objective by investing in the Euro bond market and in other negotiable debt securities. The Sub-Fund seeks to select securities in the fixed income universe by exploring various compartments of this market. Selection may also be operated via analysis of underlying fundamental features that may indicate an attractive value proposition for investors.

The Sub-Fund will at all times invest at least two thirds of its total assets directly or indirectly in fixed income securities and debt obligations issued or guaranteed by governments, corporate issuers, or supranational entities having their registered office in Europe or exercising the preponderant part of their economic activities in Europe, denominated in Euro. The Sub-Fund may also invest up to 20% of its net assets in contingent convertibles bonds.

The Sub-Fund may invest in exchange traded or OTC financial derivative instruments in order to achieve investment goals, and especially with a view of managing the portfolio’s modified duration or exploiting any anomaly in the interest rate structure within the limit of 100% of the Sub-Fund’s net assets.

The Sub-Fund may invest up to 10% of its net asset in units and/or shares of UCITS and/or in AIFs.
