## BEYOND SEMPEROSA

*Invest in companies that make a positive environmental and social contribution.*

- > A sub-fund promoting sustainable economic transition by investing in companies with a positive environmental and/or social contribution.
- > A Conviction-based management.
- > An SRI\* sub-fund promoting companies with a positive exposure to sustainable transition.

### INVESTMENT OBJECTIVE

The Sub-Fund seeks to outperform of the following index denominated in Euro: Euro Stoxx NR (Bloomberg ticker: SXXT Index) calculated with dividends net of withholding taxes reinvested, over the recommend investment term. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria. The sub-funds philosophy is particularly to focus on companies that have a strong social and/or environmental impact. This impact is evaluated through their exposure (in terms of turnover, R&D expenses or capex) via the proprietary model of the Investment Manager. The impacts are based on five long term transitions: economic transition, life style transition, medical transition, demographic transition and energy transition.

### INVESTMENT PHILOSOPHY

**Contribute to a positive environmental and/or social contribution by investing in listed equities**

The UN Sustainable Development Goals (SDGs) published in September 2015 designate the priority areas of development on a global scale by 2030. They constitute a common reference framework for the action of governments and private actors in favor of major economic, environmental and social challenges.

The sub-fund selects companies with positive environmental and social contributions in relation to the SDGs that we have identified as relevant to the universe of listed stocks: health and well-being, clean water and sanitation, clean energy, innovative industry and infrastructure, sustainable cities, responsible consumption and production, fight against climate change...

The selection of eligible stocks in the sub-fund is a two-stage process. First, an extra-financial analysis based on our proprietary ABA (Above & Beyond Analysis) model, combining the two dimensions of Corporate Responsibility and Sustainable Transition. Companies with the best profile combining good management of responsibility risks and a contribution to sustainable economic transition will be eligible. Then a financial analysis (fundamental quality, valuation, and liquidity) determines the entry of a stock into the portfolio and its weighting.

#### Transparency and assessment of positive contribution

Transparency is a major issue for ISR\* Sub-Funds. Thus, DNCA Finance systematically offers financial and extra-financial indicators in the compartment's reports. In particular, the management company measures exposure to sustainable transition issues and communicates the distribution of the portfolio based on this level of exposure.

### MANAGEMENT TEAM

Léa  
Dunand-Chatellet

Romain  
Avice

Matthieu  
Belondrade, CFA

Florent  
Eyroulet

The compartment is managed by Léa Dunand-Chatellet, Romain Avice and Matthieu Belondrade, CFA. Léa Dunand-Chatellet is Director of the "Responsible Investment" Department and has more than 25 years of experience in conviction-based SRI\* management. Romain Avice, deputy head of the "Responsible Investment" Department, is a specialist in European equities. Matthieu Belondrade, CFA has more than 20 years of experience and is a specialist in equity markets. The complementarity of their profiles is a real advantage for the management of the sub-fund: there is a strong coherence between conviction-based equity management and the objective of making a positive SRI\* contribution. The managers analyze companies from both a financial and extra-financial perspective.
