Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DNCA Invest - Europe Growth - Class H-A - USD
A sub-fund of the SICAV DNCA INVEST - ISIN: LU1278540502
This fund is managed by DNCA FINANCE

Objectives and Investment Policy

Essential management characteristics:

European Equities Fund

The Sub-Fund's objective is to outperform pan-European equity markets over the recommended investment period. The STOXX EUROPE 600 Net Return EUR reference indicator, calculated with dividends reinvested, is provided for a posteriori comparison purposes.

To achieve its investment objective, the Sub-Fund's investment strategy relies on active discretionary management aimed at investing in high-quality Pan-European "growth" stocks. The selection process is based on picking stocks according to their intrinsic worth (an in-depth analysis of fundamentals is conducted in-house), not on the composition of the benchmark index. Investments may therefore be concentrated on a limited number of stocks; there must nevertheless be at least 20 stocks in the portfolio.

The Sub-Fund may at any time invest in:
- Equities of issuers having their registered office in the EU or related financial derivative instruments (such as CFD or DPS): from 60% to 100% of its net assets.
- Equities outside the EU: from 0% to 25% of its net assets
- Corporate or government fixed income securities denominated in Euro: from 0% to 25% of its net assets.

At least 50% of the Sub-Fund's assets shall be invested in stocks of companies belonging to the STOXX EUROPE 600 Net Return Index. Investment in small and mid-cap stocks (less than EUR 3 billion) may not exceed 50% of the Sub-Fund's net assets. The Sub-Fund may be exposed to emerging markets for 5% of its net assets.

Exposure to exchange risk may reach 100% of the Sub-Fund's net assets.

Corporate or government fixed income securities shall mainly be selected from the "Investment grade" category. The proportion of speculative issues may not represent more than 10% of the Sub-Fund's net assets.

Investment in units and or shares of UCITS and or AIFs is limited to 10% of the Sub-Fund's net assets.

The Sub-Fund may use exchange traded or OTC derivatives (other than CFD and DPS) up to 40% of the Sub-Fund's net assets, including but not limited to, futures contracts and non complex options negociated on regulated markets for the purpose of hedging or increasing equity risk without seeking overexposure.

The Sub-Fund may also operate on the foreign exchange markets to cover investments realised outside the euro area.

The Sub-Fund is eligible to the PEA (french equity savings plan).

Benchmark Information: The Sub-Fund uses the benchmark for the calculation of the performance fee and performance comparison purposes. The benchmark is also used as a reference point for portfolio construction as at least 50% of the Sub-Funds' assets shall be invested in stocks of issuers belonging to the benchmark. The Sub-Fund is actively managed. This means the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund’s investment objective. The Sub-Fund may take positions whose weightings diverge from the benchmark and will invest less than 50% of its assets in securities which are not included in the benchmark. The investment strategy will restrict the extent to which the portfolio holdings may deviate from the benchmark. This deviation may be limited.

Other important information:

Income is accumulated
The redemption of units/shares may be requested each day.

Recommended investment period:
This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this sub-fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to equity and/or fixed income markets. The fund does not benefit from any capital protection or guarantee.

Material risks not taken into account in this indicator:

Credit risk: in the event that an issuer is downgraded or suffers failure, the value of the bonds in the portfolio may fall, thus decreasing the sub-fund's net asset value.

Liquidity risk: on small- and medium-cap markets, the volume of stock market-listed securities is smaller, so downward market movements are greater and faster than for large-cap shares. The net asset value of the UCITS may therefore decline faster and by more.

The occurrence of one of these risks may lead to a reduction in the net asset value.
**Charges**

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.

**One-off charges taken before or after you invest**

<p>| | |</p>
