What is this product?

TYPE OF PRODUCT:

The product is a Sub-Fund of DNCA Invest (the "Fund"), an Undertaking for collective investment in transferable securities (UCITS) under the laws of the Grand-Duchy of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Sub-Fund seeks to provide, over the recommended investment period of more than three years, a higher performance, net of any fees, than the Bloomberg Barclays World Govt Inflation Linked Bonds Hedged EUR (Bloomberg ticker : BCIW1E Index). Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social/societal and governance (ESG) criteria.
The Sub-Fund is managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. Additional information on SRI strategy may be obtained in the prospectus of the Sub-Fund.
The investment process is made of the combination of several strategies including principally:

- a directional strategy aiming to optimize the performance of the portfolio based on interest rate and inflation expectations;
- an interest rate curve strategy aiming to exploit the variations of the spreads between long-term rates and short-term rates;
- an arbitrage strategy between, fixed-rate bonds and inflation-linked bonds to take advantage of the variations of the differential between the nominal rates and the real rates according to the anticipated growth and inflation outlook;
- an international strategy the aim of which is to take advantage of the opportunities offered by the OECD bond markets with an exposure to interest rates and inflation in these countries.

And secondarily:

- a credit strategy founded on the usage of bonds issued by the private sector.

The modified duration of the Sub-Fund will stay between 0 and 15 years, without any restriction on the modified duration of individual securities in the Sub-Fund.
All investments in this government bonds are subject to an in-depth extra-financial analysis of these dimensions and of a rating that is taken into account in the investment decision.
The Sub-Fund will at all times invest up to 100% of its total assets in floating-rate and/or nominal bonds and/or inflation-linked debt instruments within the following limits: OCDE issuers (up to 100% of its total assets), Public and semi-public sector (up to 100% of its total assets), Private sector (up to 50% of its total assets).
In exceptional market circumstances, the Sub-Fund may invest up to 100% of its total assets in negotiable debt securities, fixed-rate bonds, treasury bills, commercial papers, certificates of deposit and money market instruments.
The Sub-Fund may invest up to 10% of its net assets in units and/or shares of UCITS and/or other UCIs.
The Sub-Fund will use all types of eligible derivatives instruments traded on regulated or OTC markets when these contracts are better suited to the management objective or offer lower trading costs. These instruments may include, but are not restricted to: futures, options, swaps. The Sub-Fund may invest in securities denominated in any currency. The non-base currency exposure may be hedged back to the base currency to moderate the currency exchange risks which will not represent more than 10% of the total assets of the Sub-Fund. The Sub-Fund is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Sub-Fund's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

INTENDED RETAIL INVESTORS:

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital, for receiving regular income and who wish to hold their investment over 3 years.

OTHER INFORMATION:

The Depositary is BNP Paribas, Luxembourg Branch.

The redemption of shares may be requested each day.

Income is distributed.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Sub-Fund lie in the possibility of depreciation of the securities in which the Sub-Fund is invested.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment		3 years EUR 10 000		
		If you exit after 1 year	**If you exit after 3 years**	
Scenarios				
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**			
Stress scenario	**What you might get back after costs** Average return each year	EUR 5 270 -47.3%	EUR 6 680 -12.6%	
Unfavourable scenario	**What you might get back after costs** Average return each year	EUR 9 320 -6.8%	EUR 9 270 -2.5%	This type of scenario occurred for an investment in the proxy then the product between April 2017 and April 2020.
Moderate scenario	**What you might get back after costs** Average return each year	EUR 10 190 1.9%	EUR 10 560 1.8%	This type of scenario occurred for an investment in the proxy then the product between January 2015 and January 2018.
Favourable scenario	**What you might get back after costs** Average return each year	EUR 11 220 12.2%	EUR 11 660 5.2%	This type of scenario occurred for an investment in the proxy between September 2013 and September 2016.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the Fund is unable to pay out?

There is no guarantee in place against the default of the Sub-Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.
The Sub-Fund would not be liable in the event of failure or default of the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.
The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 180	EUR 351
Annual cost impact (*)	1.8%	1.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.9% before costs and 1.8% after costs.

COMPOSITION OF COSTS

One-off costs upon entre or exit		If you exit after 1 year
Entry costs	Up to 1.00% of the amount you pay in when entering this Investment. This is the most you will be charged. The person selling you the production will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.80% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 80
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 0
Incidental costs taken under specific conditions		
Performance fees	20% of the positive performance net of any fees above the Bloomberg Barclays World Govt Inflation Linked Bonds Hedged EUR with High Water Mark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions for Shares in the Sub-Fund can be made on any Business Day. Applications for redemptions will normally be satisfied on the Business Day following the applicable Valuation Day, provided that the application is received by 12.00 noon (Luxembourg time) on the Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
