Objectives and Investment Policy

Essential management characteristics:

Global Convertible Bond Fund

The Sub-Fund seeks to provide capital appreciation with low volatility (annual average volatility around 7% in normal market conditions) by investing in global convertible bonds. Investors’ attention is drawn to the fact that the management style is discretionary. The portfolio composition will not attempt to replicate the composition of a benchmark index from a geographical or sectoral perspective. Even so, the UBS Thomson Reuters Global Focus Vanilla Hedged (Eur) CB Index may be used as ex-post benchmark indicator.

The investment process is made of the combination of a global bond approach and bond-picking policy. It aims to create a portfolio with a lower volatility than an underlying equity investment based on a fundamental approach and a qualitative analysis of each issuer.

The Sub-Fund will at all times invest at least 50% of its total assets in global convertible bonds, exchangeable bonds and mandatory redeemable bonds of issuers within the following limits:
- Convertible, exchangeable or mandatory redeemable bonds denominated in any other currency than Euro: from 50% (minimum) to 100% (maximum) of its assets invested in convertible, exchangeable or mandatory redeemable bonds;
- Convertible bonds rated "investment grade" or whose issuer is rated "investment grade": at least 30% of its assets invested in convertible, exchangeable or mandatory redeemable bonds;
- The Sub-Fund may invest in Money-market and debt instruments: from 0% to 50% of its total assets in adverse market conditions and from 0% to 25% in case of normal market conditions.
- The Sub-Fund may be exposed to emerging markets for 50% of its net assets.

In addition, the Sub-Fund may invest the remaining part of its total assets in warrants, subscription rights and other bonds with any equity link. The Sub-Fund may invest up to 10% of its net assets in units or shares of UCITS or regulated AIFs.

The Sub-Fund may invest in securities denominated in any currency. However non-base currency exposure may be hedged back to the base currency to moderate currency exchange risks. More specifically, futures, and currency forwards may be used for that purpose. The currency exchange risk could represent up to 50% of the total assets of the Sub-Fund depending on the hedging strategy.

Recommended investment period:
This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

Material risks not taken into account in this indicator:

Credit risk: in the event that an issuer is downgraded or suffers failure, the value of the bonds in the portfolio may fall, thus decreasing the sub-fund's net asset value.

The occurrence of one of these risks may lead to a reduction in the net asset value.
**Charges**

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.

<table>
<thead>
<tr>
<th>One-off charges taken before or after you invest</th>
</tr>
</thead>
<tbody>
<tr>
<td>Entry charge</td>
</tr>
<tr>
<td>Exit charge</td>
</tr>
</tbody>
</table>

The percentage indicated is the maximum that may be taken out of your capital before it is invested. In certain cases the investor pays less. You can obtain the actual amount of entry and exit charges from your financial advisor or the establishment with which you place your order.

<table>
<thead>
<tr>
<th>Charges taken from the fund over a year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ongoing charges</td>
</tr>
</tbody>
</table>

The ongoing charges are based on figures for the preceding financial year ended 31 December 2019. This percentage may vary from one financial year to another. They do not include: performance fees and transaction charges except in the case of subscription and/or redemption charges paid by the UCITS when it buys or sells units in another investment vehicle.
