**Objectives and Investment Policy**

**Essential management characteristics:**

European Equities Fund

The Sub-Fund seeks to outperform of the following composite net return index denominated in Euro: 40% MSCI Nordic, 35% DAX, 15% SMI, 10% MSCI UK TR UK Net Local Currency calculated with dividends net of withholding taxes reinvested, over the recommended investment term.

The Sub-Fund will invest at all time at least 90% of its total assets in equities of issuers listed on North European stock exchanges (Britain, Ireland, Benelux, Norway, Sweden, Finland, Denmark, Germany, Swiss, Austria) in all market capitalisation or exercising the preponderant part of their economic activities in North Europe. The selection process carried out by the Investment Manager is based on picking stocks according to their intrinsic worth (an in-depth analysis of fundamentals is conducted in-house) as opposed to a mere replication of the composition of the benchmark index. It is a conviction fund intended to be concentrated on a small number of issuers, between 30 and 60. Investments may therefore be concentrated on a limited number of stocks.

The Sub-Fund may at any time invest in:
- Equities of issuers having their registered office in the North Europe: from 80% to 100% of its net assets;
- Equities outside the North Europe: from 0% to 10% of its net assets;
- Equities with total market capitalisation below 200 million EUR up to 10% of its net assets;
- Fixed income securities and money market instruments or deposits if market conditions are unfavourable: from 0% to 10% of its net assets;
- Other financial instruments up to 10% of its net assets.

Exposure to exchange risk may reach 100% of the Sub-Fund's net assets.

Investment in units and or shares of UCITS and or AIFs is limited to 10% of the Sub-Fund's net assets.

The Sub-Fund may not invest in derivatives or any other financial derivative instruments.

The Sub-Fund is eligible to the PEA (french equity savings plan).

**Benchmark Information:**

The Sub-Fund is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund’s investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Investment Manager is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

**Other important information:**

Income is accumulated.

The redemption of units/shares may be requested each day.

**Risk and Reward Profile**

<table>

</tbody>
</table>

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this Sub-Fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to equity and/or fixed income markets. The fund does not benefit from any capital protection or guarantee.

**Material risks not taken into account in this indicator:**

Credit risk: in the event that an issuer is downgraded or suffers failure, the value of the bonds in the portfolio may fall, thus decreasing the sub-fund's net asset value.

Liquidity risk: on small- and medium-cap markets, the volume of stock market-listed securities is smaller, so downward market movements are greater and faster than for large-cap shares. The net asset value of the UCITS may therefore decline faster and by more.

The occurrence of one of these risks may lead to a reduction in the net asset value.
**Charges**

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.

<table>
<thead>
<tr>
<th>One-off charges taken before or after you invest</th>
