What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of DNCA Invest (the "Fund"), an Undertaking for collective investment in transferable securities (UCITS) under the laws of the Grand-Duchy of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Sub-Fund seeks to outperform of the MSCI China 10/40 Net Return Index (BBG ticker: MN40CNE) over the recommended investment term of 5 years by investing mainly in equities and equities related securities of Chinese companies of issuers exercising the preponderant part of their economic activities in China.

The Sub-Fund implements active conviction management using a "Quality GARP" (Quality Growth at a Reasonable Price).

The Sub-Fund is actively managed and mainly selects equities of Chinese companies listed and traded in RMB on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges (China A-Shares) or on the Hong Kong Stock Exchange or by investing in American Depositary Receipts (ADRs) or Global Depositary Receipts (GDRs) of Chinese companies. The Sub-Fund may also invest in equity from issuers exercising a preponderant part of their economic activities in China, Republic of China and/or companies operating in the PRC. Exposure to Mainland China securities will be made by investing in A-Shares through Stock Connect, and the RQFII/QFII programs, H-Shares (equities of companies listed in the Hong Kong market that are either registered in Hong Kong or registered in the PRC and approved for listing on the Hong Kong Stock Exchange by the Chinese government). Additionally, exposure to Chinese Market may be achieved through investments in American Depositary Receipts (ADRs) listed on the New York Stock Exchange or the NASDAQ and Global Depositary Receipts (GDRs), or in ADR listed on the London Stock Exchange. The remaining portion of the Sub-Fund may be invested in transferable securities in Money Market Instruments, cash and/or UCITS/other UCI. The Sub-Fund can be exposed to all currencies other than the EUR, bringing the exchange risk to 110% maximum of its net assets. The Sub-Fund may also use derivatives for the purpose of increasing the currency exposure. The Sub-Fund may use exchange traded or OTC derivatives, including but not limited to, futures contracts, options, and non-complex options, for the purpose of hedging or increasing or arbitrage equity exposure or without seeking overexposure. The Sub-Fund may make use of deposits.

The Sub-Fund is actively managed. This means the Management Company is taking investment decisions with the intention of achieving the Sub-Fund's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant. The reference benchmark does not intend to be consistent with the environmental or social characteristics promoted by the Sub-Fund.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Sub-Fund lie in the possibility of depreciation of the securities in which the Sub-Fund is invested.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

What happens if the Fund is unable to pay out?

There is no guarantee in place against the default of the Sub-Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The Sub-Fund would not be liable in the event of failure or default of the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.
