A sub-fund of the SICAV DNCA INVEST - ISIN: LU1209145884

This fund is managed by DNCA FINANCE Luxembourg

## Objectives and Investment Policy

### Essential management characteristics:

Absolute Return Fund

The Sub-Fund seeks to achieve a positive performance higher than the following composite Index: 25% EUROSTOXX 50 NR + 75% EONIA. This performance objective is sought by associating it to a lower annual volatility than 8%.

The Sub-Fund's strategy qualifies as absolute return and relies on fundamental financial analysis performed by the Investment Manager. It invests in European issuers (EEA plus Switzerland). The global risk associated with investments of the Sub-Fund (Longs and Futures) cannot exceed 200% of the net assets of the Sub-Fund. With a net exposure limited to 0/+ 50% of the assets under management, it is not significantly dependent on the equity market trends. The major part of the performance depends on the Investment Managers' capacity in identifying equities that have the characteristics to outperform their market indexes or their sector indexes.

The Sub-Fund may at any time be invested in:

- Equities issued in Europe (EEA plus Switzerland) or equivalent financial instruments (such as ETF, futures, CFD and/or DPS, etc.): from 75% to 100% of its net assets,
- Equities issued outside of EEA plus Switzerland: up to 10% of its net assets,
- Equities with total capitalisation below 150 million Euros up to 5% of its net assets,
- Euro zone Ordinary Bonds, convertible bonds or equivalent, money-market instruments or deposits: from 0% to 25% of its net assets,
- other financial instruments up to 10% of its net assets.

The Sub-Fund may invest up to 10% of its net assets in units and/or shares of UCITS and/or AIFs.

For the purpose of hedging and increasing equity or currency risk without seeking overexposure, the Sub-Fund also operates on regulated markets of futures on European indexes and futures on sectors (included or not in a DPS). The Sub-Fund can also operate on the foreign exchange markets to cover investments realised outside the euro area or relating to the United Kingdom, Switzerland or Scandinavia.

The Sub-Fund is eligible to the PEA (French equity savings plan).

---	---	---	---	---	---	---

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this sub-fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to equity and/or fixed income markets. The fund does not benefit from any capital protection or guarantee.

### Material risks not taken into account in this indicator:

**Credit risk:** in the event that an issuer is downgraded, the value of the bonds in the portfolio may fall, thus decreasing the fund's net asset value.

**Counterparty risk:** the use of CFD may expose the investor to the risk of default by the counterparty.

**Risk of using derivative products:** the use of derivative instruments may reduce the net asset value in case of exposure in a direction opposite to that of the market trend.

The occurrence of one of these risks may lead to a reduction in the net asset value.
