

Results of the 23rd *Palmarès des Fournisseurs* investment management awards

The results of the 23rd *Palmarès des Fournisseurs* investment management survey were announced in Paris on January 12, 2016 to an audience of more than 200 guests.

Every year for the past 23 years, French trade publication *Gestion de Fortune* (Wealth Management magazine) has drawn up its *Palmarès des Fournisseurs* survey, which rates the investment management industry. This unequalled survey polls 3,900 independent financial advisors across France, and uses very stringent criteria and methodology. The awards ceremony took place on Tuesday, January 12 2016 at the Grand Hôtel Intercontinental Opera in Paris.

The *Palmarès des Fournisseurs* gives a real insight into the investment management sector, providing both a quantitative view of the industry and highlighting companies that are most frequently mentioned by participating financial advisors, as well as a qualitative view, as participating advisors are asked to rate the quality of the product range, availability of the sales team and the quality of the back office for companies mentioned. The average of these various rankings gives a total ranging from 1 to 5.

INVESTMENT MANAGEMENT COMPANIES (AuM OF MORE THAN €5bn)

No.	Company	Quality of product range	Quality of service	Quality of sales team	% mentioned	
1	DNCA FINANCE	4.10	3.90	3.96	60	****
